What is the Amateur Radio Eules?

Who We Are...

The Amateur Radio Club Eules is an association of members who have a common interest in the avocation of Amateur Radio. Our members have diverse interests. You will find among our ranks those who enjoy building their own radios and those who enjoy contacting other Amateurs around the world. Those who perform community service and those who simply enjoy the chance to meet new people over the air. Amateur Radio is a worldwide service that can be an enriching, educational, lifelong activity.

What We Do...

The club holds monthly meetings in the Eules Police Department. These meetings are an opportunity to learn about news in Amateur Radio, plan organized club events, and to share information. We try to have an informative presentation at each meeting on any of a wide variety of topics related to radio and communica-

in Amateur Radio, plan organized club events, and to share information. We try to have an informative presentation at each meeting on any of a wide variety of topics related to radio and communications.

Amateur Radio is a licensed radio service. To earn a license requires passing examinations regulated by the Federal Communications Commission. But we're not just for people who are already licensed... the members and officers of Amateur Radio are interested in sharing our enjoyable and interesting avocation with *anyone* who is curious about Amateur Radio and communications. We're also excited about helping people earn their own Amateur Radio license.

Who's the Typical Ham?

Amateur Radio operators come from all walks of life -- movie stars, missionaries, doctors, students, politicians, truck drivers and just plain folks. They are all ages, sexes, income levels and nationalities. They say Hello to the world in many languages and many ways. But whether they prefer Morse code on an old brass telegraph key, voice communication on a hand-held radio, or computerized messages transmitted via satellite, they all have an interest in what's happening in the world, and they use radio to reach out
